

As Thailand's leading Energy Company, PTT Public Company Limited strongly believes that a higher-education research institute dedicated to science and technology with the missions to foster exceptional scientists and to build cutting-edge knowledge and innovation is crucial for the nation. Therefore, PTT Group has founded the Power of Innovation Foundation to establish Vidyasirimedhi Institute of Science and Technology (VISTEC), the first world-class research and educational institute in science and technology in Rayong, Thailand, with the emphasis on knowledge discovery and interdisciplinary cutting-edge research. The new schools of Biomolecular Science and Engineering and of Information Science and Technology are scheduled to start in August, 2017.

REQUIREMENTS

Outstanding candidates with a proven excellent track record in establishing high impact research in the areas described above should submit:

- their curriculum vitae
- a list of publications, including a list of five self-selected "best papers" and "talks"
- a description of their motivation, research plans, research experience, teaching experience and interests
- names of three referees

The positions will remain open until filled.

An
internationally
competitive
salary

State-of-the-
art research
facilities

Outstanding
faculty and
researchers

Generous
research
funding

Numerous
benefits
(infrastructure,
housing,
etc.)

BENEFITS WE OFFER
