e-mail@ddress3

⁴Name of Department, Name of Faculty, Name of Institute, Address, Country
e-mail@ddress4

Abstract

This is a template in L^AT_EX format for your abstract paper.

- The abstract should not have equations, and must not have references.
- The length of the abstract must not exceed *ONE* page (title, author names and affiliations, and keywords included).
- It should clearly summarize your work, giving the objectives and output of the project, so that the readers could evaluate its suitability if needed.
- *If the work is to be presented by Richard K. Anderson, for example, the abstract file must be named anderson!rk.tex.*
(Notice the mandatory exclamation mark '!'.)
- Please see comments in the source tex file C_{SSS}2026MUabstract.tex for more details of the format.
- Look for the symbol *** in C_{SSS}2026MUabstract.tex to make sure you have supplied all needed information in your abstract file.

Keywords: keyword1, keyword2, keyword3, keyword4, keyword5, keyword6.

(List up to 6 keywords, without capitalization and without boldface font. Please separate each keyword using a comma.)

*Corresponding author.
